

The cover features a central circular graphic with a white background and a blue border, containing a green mossy globe. This is set against a dark blue background with faint icons of a circular arrow, a recycling symbol, and a hand holding a leaf. The title 'PROJECT FACTSHEET' is prominently displayed in the upper center.

# PROJECT FACTSHEET

## Project Title:

**Strengthening the Local Intervention Capacities for  
Climate Change in the Black Sea Region – LAP BLACK**

**BSB00353 LAP BLACK**

**Interreg**

Co-funded by  
the European Union

**NEXT** Black Sea Basin

# Overview

## Project Details

**Start Date:** 25.09.2024

**End Date:** 24.09.2026

**Project Budget:** 1.460.611,30 €

**EU Funding:** 1.314.550,14 €

The LAP-BLACK project is a cross-border partnership aimed at strengthening the local intervention capacities for climate change in the Black Sea Basin. The project's overall objective is to create a sustainable and climate-resilient region while highlighting the importance of local intervention and collaboration. The specific objectives include building adaptation teams, developing Local Adaptation Plans, establishing pilot applications, monitoring and updating Local Adaptation Plans and engaging stakeholders to raise awareness and disseminate project results. The communication objectives are to raise awareness, engage stakeholders, disseminate results and promote best practices.

## PP5 - Ukraine (UA)

Ukrainian Association of  
Business Support Centers  
Partner Budget : 316,814.16 €

The LAP-BLACK project escalates the regions' resilience against the adverse impacts of climate change by fostering cross-border cooperation and knowledge exchange to develop joint solutions. Strengthening the regional solidarity and facilitating innovative and adaptive strategies in response to climate crisis within the project promote sustainable development, contribute to the conservation of natural resources, and encourage the implementation of ecosystem-based approaches. To address these challenges, the LAP-BLACK project proposes a transnational cooperation approach, focusing on the development of Local Adaptation Plans and the integration of adaptation and mitigation measures.

NEXT Black Sea Basin

# Expected Results

1

Establishment of Local Adaptation Teams

2

A robust monitoring and evaluation framework to ensure the effectiveness of LAPs.

3

Development of Local Adaptation Plans tailored to local needs.

4

Enhanced stakeholder engagement and raised awareness about climate change impacts and adaptation strategies.

5

Implementation of pilot projects to showcase adaptation measures.
